MODEL型号: TCQI 10P

Download the app

ANDROID
Please scan this QR code using the scan function in your browser or WeChat to download it in the usual way.

IPHONE
Search for 【TCQI】 on the App Store to download and install it

Users of Huawei's HarmonyOS 5.0 are advised to download the 【TCQI】from the Huawei AppGallery.

FOREWORD

- First, thank you for purchasing LENSGO products.
- This user manual introduces product operation and precautions. Please read it thoroughly to understand safety guidelines, product features and operation before use.

IMPORTANT NOTICE

This manual provides guidance on the correct use and care of the TCQI 10P mobile teleprompter and its accessories, and assists users in resolving queries and understanding safety precautions.

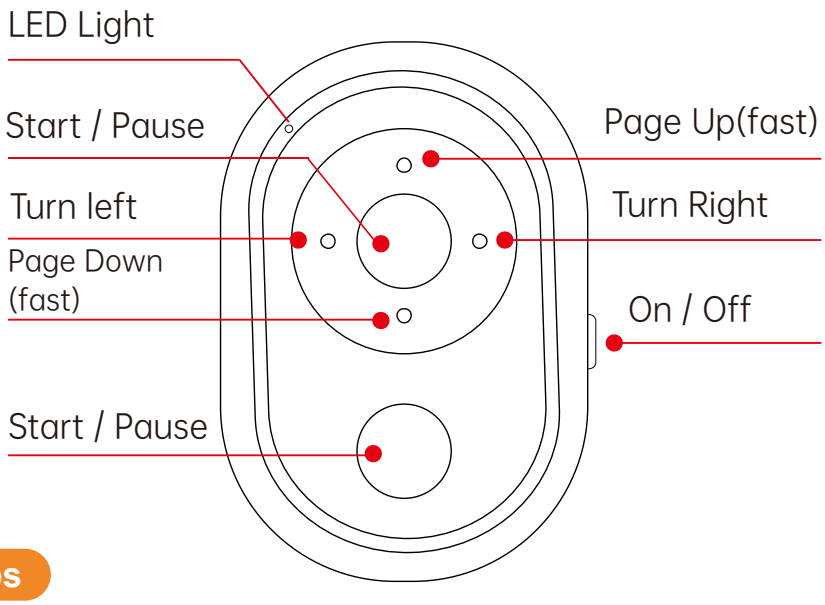
Please read this manual carefully and keep it in a safe place.
When passing the product on to others, please ensure that this instruction manual is included, pay attention to all warnings and follow all instructions contained herein.

Accessories Guide

Accessories like Bluetooth remote, clamps and screws are consumables (not covered by 1-year warranty). Check for wear regularly; buy replacements from dealers when needed.

BLUETOOTH REMOTE CONTROL

- Control the teleprompter app to turn pages, pause, adjust settings, and change the font and background colour



Connection steps

- Download and install the TCQI teleprompter app.
- Turn on the Bluetooth remote control.
- Turn on phone Bluetooth and connect to the device named "TCQI".

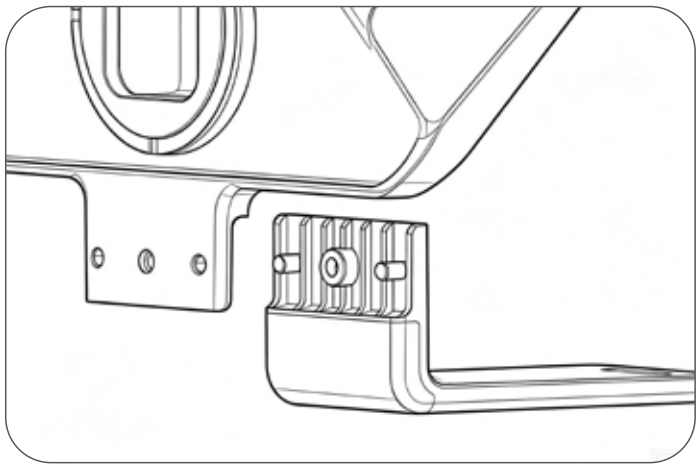
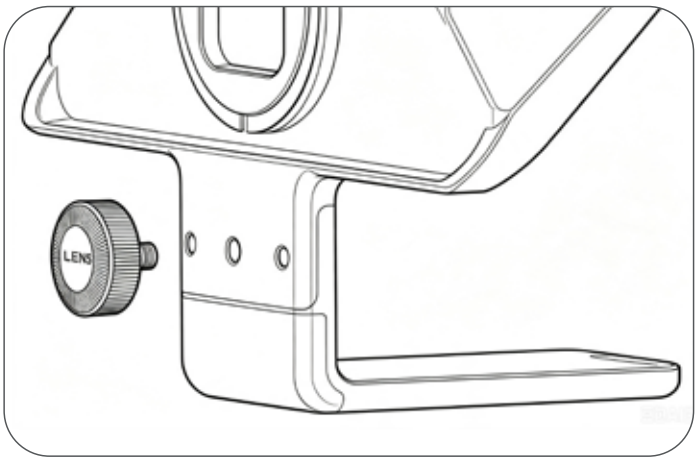
TELEPROMPTER EQUIPMENT:	Magnetic-enabled Smartphone
SHOOTING EQUIPMENT:	Smartphone (portrait / landscape adjustable)
GLASS SIZE:	220*105*1.8MM
TELEPROMPTER APP:	TCQI supports Android & iOS
MAIN SCREEN WEIGHT:	/
BASE & PHONE CLAMP WEIGHT:	/
NET WEIGHT:	/
PACKAGE NET WEIGHT:	/

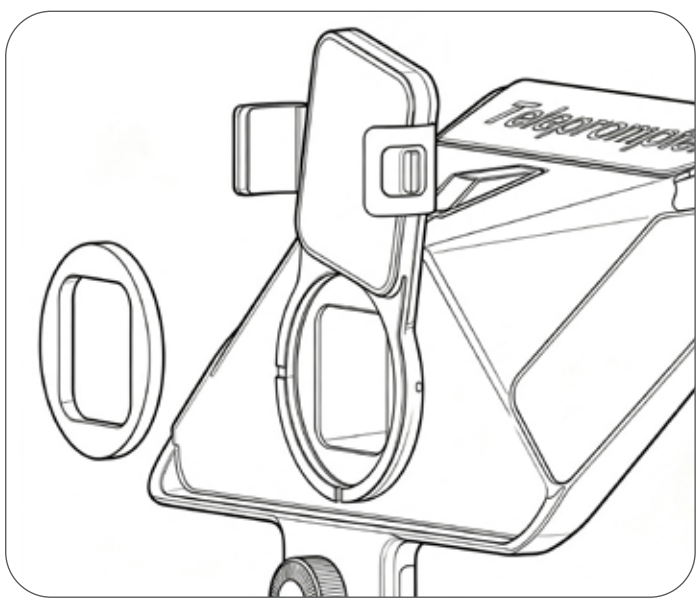
USAGE

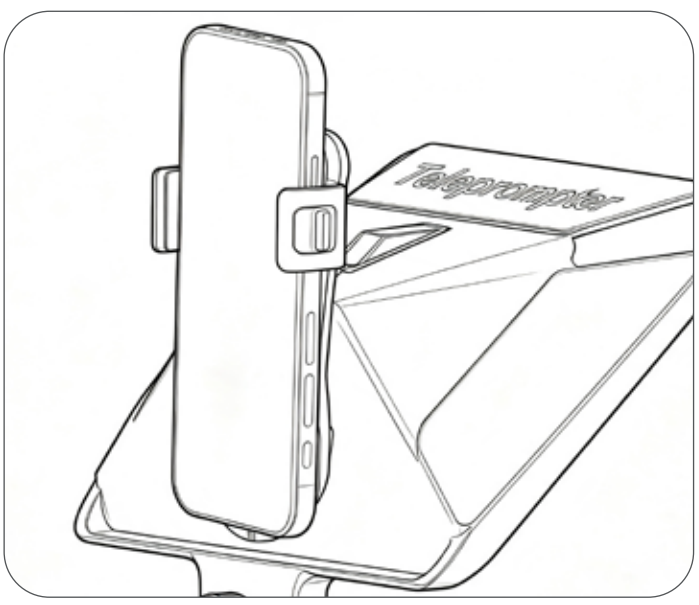
01/ Align phone base to main monitor screw positions and tighten with screws.





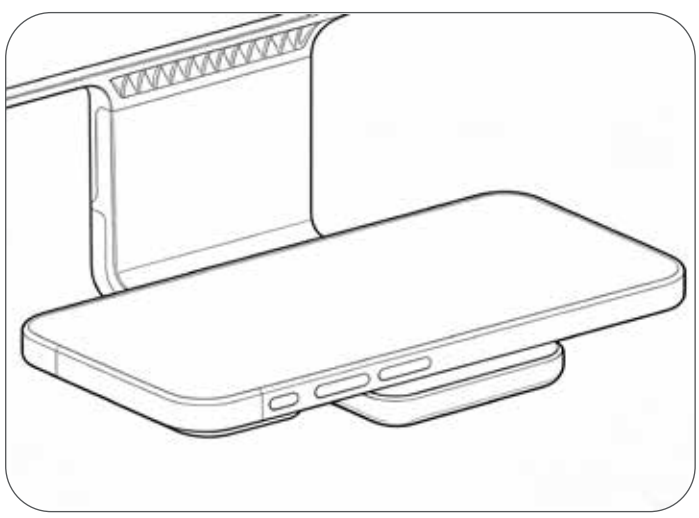
02/ Insert dedicated lens ring into phone clamp shooting aperture. Install the phone, align main camera with the shooting opening and insert. Adjust focal length before shooting to prevent vignetting.

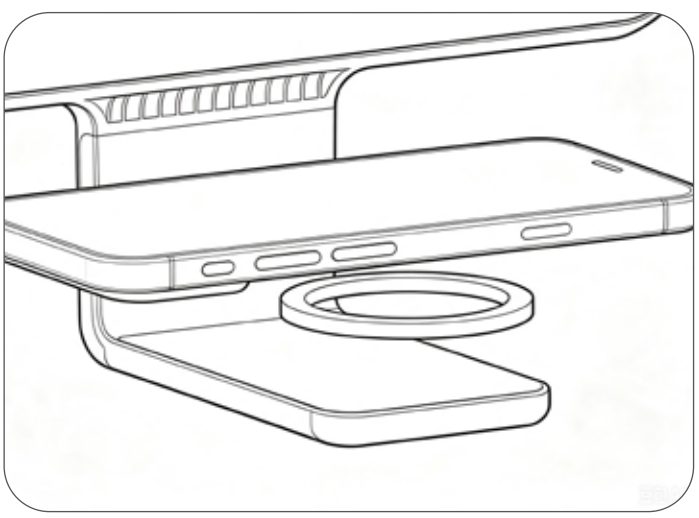




03/ Edit the script and set the teleprompter phone on the magnetic base.

If your phone does not support magnetic attraction, attach the included magnetic metal plate to the back of the phone or place the plate inside the phone case. Align it with the magnetic area of the mount for secure placement.





⚠ WARNING:

- Adjust phone position or focus if front panel appears in camera view.

• IPHONE COMPATIBILITY INSTRUCTIONS

This product features model-specific lens cutouts for different phones.

Align and insert the main camera lens into the corresponding opening only.

Pre-iPhone 15 models
Square openings (thick/thin) match camera modules.

iPhone 15 & newer models
Vertical slots fit vertically arranged camera modules.

• ANDROID COMPATIBILITY INSTRUCTIONS

Select square, round or vertical openings per camera module.

Align main lens into the matching hole for installation.

Warranty card
